Textile World

INDEX TO VOLUME 108
January–December, 1958

McGraw-Hill Publishing Co., Inc.
330 West 42nd Street, New York 36, New York

A

Air conditioning and related equipment
- Air-conditioning loads, Six heat sources determine — July 132
- Air-distributing units — Nov. 176
- Axial-flow fans, Motorized — Nov. 138
- Central air-handling system — May 120
- Controller, Dual element — Oct. 155
- Cooling unit, Absorption — June 166
- Dampers, Motor to control — Feb. 178
- Guide to exhibitors at Southern Textile Exposition — Sept. 129
- Humidifier, Motor-driven — Feb. 178
- Humidifiers — Dec. 144
- Industrial fans — Feb. 209
- Temperature, Controlled motor heat levels spinning-room — May 59
- Thermostat, Summer-winter — May 126
- Ventilating fans requires special skill, Operating — Dec. 148

Alabama Textile Operating Executives
- Multicylinder slashers, Alabama mill men review new — July 60
- Shuttles, Alabama mill executives go for plastic — Aug. 55
- Stretching yarns too much can cause weaving trouble — Feb. 202

American Assn. of Textile Chemists & Colorists
- Annual AATCC convention, 36th — Jan. 114
- Intersectional contest papers — Jan. 114
- Technical papers and addresses from annual meeting — Jan. 119
- More technical papers — Feb. 130

B

Building construction and maintenance
- Corrosion-resistant material — Feb. 172
- Floor, Concrete slab over decking forms sturdy new — Mar. 155
- Floor seal, Heavy-duty — Sept. 112
- Greater profits, Modern plants and machines lead to (Plan '59) — Oct. 84
- Guide to exhibitors at Southern Textile Exposition — Sept. 129
- Improvements, The Kendall Company completes $1 1/2-million — Nov. 54
- Modern lighting practice, See and work better with — Oct. 190
- Painstaking work, How to taper a paintbrush for — Feb. 153
- Southern Textile Exposition, Highlights of auxiliary equipment and supplies — Nov. 51
- Window shade is made from stock parts, Renewable — Aug. 86

Bulk yarns
- Combines worsted and cotton machinery, New mill — June 78
- Patent action pleases high-bulk spinners, Du Pont — May 5
- Saaba textured yarn, How Concordia makes — Nov. 64
- Taslan yarns, How Claussner makes — Feb. 108
- Textured, Filament yarns are becoming — Feb. 96
- Textured nylon makes a bid for tufted-carpet sales — Dec. 52
- Textured-yarn machines, Throwsters modernize with (Plan '59) — Oct. 69
- Texturing machine — Dec. 112

C

Carpets -- See also under Cotton, Synthetics, Wool, Tufting, etc.
- Bedspreads join carpets as profitable tufted textiles — Feb. 93
- Bevel-edge machine — Feb. 170
- Celaire-carpets introduced — July 104
- Coarse yarns, Machine ties — Oct. 128
- Cocoa mats are made, How — Feb. 165
- Color trends, To sell more carpets -- spot the — Jan. 10
- Construction, New carpet — Nov. 123
- Dyes carpet wools, How Roxbury — Feb. 122
- Guide to exhibitors at Southern Textile Exposition — Sept. 129
- Improved machines and yarns put tufted carpets on top (Plan '59) — Oct. 64
- Knitted carpet — July 104
- Labels, Machine to print rug — Dec. 116
- Lees's new carpets — Nov. 123
- Modern practices for tufting carpets — Mid-July 13
- Mothproof carpets — Dec. 120
- Nylon carpet labeling — Oct. 133
- Nylon for carpets, New — June 123
- Pile knitting machine — Mar. 159
- Rayon staple in carpets — June 124
- Reeling machine — Jan. 138
- Sewing machine, Carpet — May 118
- Shaded tufted carpets — July 103
- Solution-dyed yarns increase tufted-carpet sales — June 76
- Textured carpets — Aug. 98
- Textured nylon makes a bid for tufted-carpet sales — Dec. 52
- Thread lubricator solves sewing problem — May 100
- Yarn for carpet base — June 124
- Yarn for carpet base - Kraftcord yarns made ten years ago — Sept. 18

Cleaning
- Belts with card clothing, How to clean — Apr. 120
- Clean take-up brackets to keep knitwear clean — June 118
- Cleaning 50% faster, Mill-made sweeper makes — May 104
- Cleans bobbins instantly, Brush mounted on motor — Mar. 149
- Cleans slots in machines, Round brush in hand drill — July 96
- Comber-cleaning time 50%, Combination tool cuts — Aug. 90
- Electric-motor cleaner — Feb. 196
- Fluorescent lamps, Homemade chemical formula cleans — May 106
- Guide to exhibitors at Southern Textile Exposition — Sept. 129
- Hosiery-form cleaner — May 126
- Knitting machines, Two ways to clean — Mid-July 36
- Loom clutches are cleaned with these thin paddles — Nov. 108
- Scrubber machine, Rider — Dec. 109
- Spray gun, Chemical-cleaning — May 124
- Sweeper, Power — Apr. 194
- Sweeper, Power — May 186
- Weave rooms clean, Cotton mills improve way to keep — Apr. 52

Cloth room
- Gray-goods seamer — Sept. 248
- Improvements, The Kendall Company completes $1 1/2-million — Nov. 54
- Inspection board, Black and white backgrounds improve — Nov. 108
- Inspection, Cloth-roll dolly permits quick — Nov. 106
- Inspect face and back of cloth in one run — Jan. 150
- Inspected after weaving, How cloth is — Mar. 157
- Labor saving, New cloth rooms feature (Plan '59) — Oct. 75
- Southern Textile Exposition, Highlights of bleaching, dyeing, finishing, and cloth-room equipment — Nov. 50
- Streamlined layout, Eagle & Phenix cloth room has — Apr. 74

Cotton (general)
- Biggest users of cotton, Men's and boys' shirts are — Jan. 20
- Cotton bales are stored out of doors, How — Mar. 156
- Cotton-clinic round table, Methods and instruments feature — May 88
- Cotton-fiber table, 1958 revision — June 47
- Cotton improved at low cost — Apr. 86
- Cotton policy will benefit mills, Switch in — Sept. 7
- Cotton Research Clinic, Fiber and yarn testing features — Apr. 54
- Cotton thread waste is more absorbent than cloth — Apr. 21
- Cotton storage, More about — May 18
- French cotton mills had banner year in 1957 — Aug. 5
- Improve cottons, Metallic salts may — July 67
- Loses and gains in industrial uses, Cotton — Dec. 4
- 1957 cotton, What you can expect from — Mar. 86
- No-iron cotton sheets — July 103
- Production by fiber--Cotton — Feb. 84
- Southern Textile Exposition, Guide to exhibitors at — Sept. 129
- Southern Textile Exposition, Highlights of the 20th — Nov. 45
- Support price lowered on extra-long cotton — Aug. 8
- Waste loss for carded yarns, Allow 14% — Jan. 143

Cotton bleaching
- Better cotton bleaching, Combine chlorine and peroxide for — Aug. 69
- Bleaching range, Open-width — Jan. 136
- Bleaching time cut 90% — Mar. 115
- Continuous bleaching with silicate-free peroxide — Mid-July 41
- Modernizes bleaching and coating methods, Joanna — Aug. 72
- Open-width bleaching machine — July 110
- Peroxide-bleached cotton, The effects of metal contaminants on — Jan. 115
- Peroxide-bleaching solutions, Testing — Mid-July 45
- Peroxide, New bleaching process saves — Feb. 139
- Processes yarns at a profit, How one dye-house — May 84
- Southern Textile Exposition, Highlights of bleaching, dyeing, finishing and cloth-room equipment — Nov. 50
- Tinged-cotton bleaching improved — July 68
- Two-stage bleaching gives Startex good results — Mar. 128

Cotton blending
- Blending by Micronaire numbers, How to improve — Sept. 62
- Cotton blender, Mechanical — Apr. 136
- Cotton-rayon blends, Lightfastness on — Jan. 117
- Fiber-fineness data to improve cotton processing, Use — Jan. 96
- Low-grade cotton, Fineness is No. 1 factor in blending — Dec. 54
- Process 1957 cotton, Research specialist tells STA how to — July 61

Cotton carding
- Air currents in cards pull few fibers from wire — Feb. 198
- Air has little effect on carding operations — May 88
- Calender roll, Bolt increases pressure on card — June 116
- Card-grinder training -- how to grind cards — Jan. 76
- Card strips from falling, This collector keeps — June 110
- Carding without flats, SRRL attachment permits — Apr. 55
- Cleaning easier, Weighted doors on cards make — Dec. 101
- Coilers, Card and comber — June 127
- Feeders, Card — Dec. 146
- Flat grinding more accurate, Rider pulley makes — Feb. 160
- Improvements, The Kendall Company completes $1 1/2-million — Nov. 54
- Novelty yarn, How to make nubs for — Nov. 62
- Research aims at higher carding production — Feb. 87
- Southern Textile Exposition, Highlights of opening, picking, carding — Nov. 45
- SRRL openers in use, Georgia carders analyze — July 54
- Speeds manhour production, New carding equipment (Plan '59) — Oct. 52
- Two-can coiler — Mar. 162
- Vibrating guide shakes trash from card web — Sept. 98

Cotton combing
- Change-over, Comber — Aug. 106
- Chokes, Enlarge hole in coiler plate to stop — Mar. 151
- Coilers, Card and comber — June 127
- Comber-cleaning time 50%, Combination tool cuts — Aug. 90
- Cotton comber — Apr. 134
- Fiber graph for combing, Cotton — Mid-July 15
- Grade and staple of cotton, Combing can improve — May 89
- Half-lap comber needle spacing reduces bouncing action — Sept. 16
- Half-lap needling affects comber efficiency, How — May 90
- Noil at the comber, Multiple drawings reduce — Apr. 54
- Operation, Checklist for comber — Mid-July 16
- Southern Textile Exposition, Highlights of drawing, combing, roving — Nov. 46
- Variation at the comber, This checklist will help you reduce — Apr. 80

Cotton drawing
- Apron bar, Revolving — July 110
- Coilers, Drawing-frame — June 128
- Drawing-frame underclearer — Oct. 148
- Sliver tension at draw box, Brass rings correct — Oct. 104
- Southern Textile Exposition, Highlights of drawing, combing, roving — Nov. 46

Cotton dyeing
- Cellulosic fibers, How direct colors dye — June 96
- Fiber-dyeing method, New — Feb. 113
- Package-dyeing unit, Pressurized — May 120
- Pigment-dyeing methods, New — June 85
- Processing-water problems, How American & Efird licks — Jan. 108
- Reactive dyes work, How — Mar. 124
- Southern Textile Exposition, Highlights of bleaching, dyeing, finishing, and cloth-room equipment — Nov. 50
- Sulfur colors minus sulfide, Dye — Aug. 61
- Zipper tapes, How Caledonian dyes — Mar. 132

Cotton fabrics
- Rot resistance to cotton, Acid colloids give — Dec. 94
- Smoothness of cotton fabrics, Improving the — Dec. 97
- Wash-and-wear, Cotton-rayon blends for — May 65
- Wash-and-wear, Oxygen bleaches for — May 67

Cotton fiber
- California's 1957 cotton is the best crop yet — Jan. 93
- Cotton-fiber table, 1958 revision — June 47
- Definition of the term mm^2/mm^3, Here's a — June 121
- Definition -- better explanation of mm^2/mm^3 question — Sept. 16
- Delta cotton properties, How rain damage affected — May 51
- Fiber-fineness data to improve cotton processing, Use — Jan. 96
- Fiber length of cotton should be increased — Apr. 58
- Fineness and maturity, Modified Micronaire predicts both — May 91
- Heat and overginning are hurting cotton — Nov. 18
- High-grade 1958 cotton, South Texas produces — Dec. 69
- How to select cotton, Buyers are told — Sept. 71
- Hybrid cotton gives more yield — June 121
- Length of cotton fiber, Pneumatic instrument measures — May 93
- Long-staple cotton needed, More — June 5
- Mean-length values are not easy to figure, Cotton — Apr. 126
- Mill-laboratory instrument, Nepotometer can be used as a — Apr. 56

Nepotometer in testing, Progress report on use of the ... May 92
Modified cotton has new uses ... Aug. 62
1957 cotton, What you can expect from ... Mar. 86
Process 1957 cotton, Research specialist tells STA how to ... July 61
Rio Grande's 1958 cotton is better than average ... Nov. 53
Scramble for quality, In raw cotton ... Jan. 7
Stress-strain properties, How 8 fibers compare in ... Mar. 97
Vapor-phase coating ... Apr. 87

Cotton finishing
Blend epoxy resins for improved finishes ... Dec. 90
Chemical-treatment advances show way to profits (Plan '59) ... Oct. 76
Chemical treatment, Better methods and materials for ... Feb. 99
Fabric temperature, measure with a radiation pyrometer ... June 89
Flame retardant provides good crease resistance ... Dec. 95
Gassing speeds for cotton depend on yarn number ... May 111
Industrial fabrics, How Ohio Falls finishes ... Aug. 65
Laundering affects cotton finished with DMEU resins, How ... Feb. 133
Mercerizing, What makes good? ... May 69
Modernizes bleaching and coating methods, Joanna ... Aug. 72
Nappers work — and how to work them, How ... July 78
Naps flannel at 33 yds. per min., Carolina ... Sept. 93
New resins for treating white cotton goods, The ... Apr. 89
Pad rolls, New idea in ... Jan. 101
Polished cottons, How Millville produces ... Mar. 120
Processes yarns at a profit, How one dyehouse ... May 84
Resin-finished cottons, What affects chlorine retention in ... Dec. 95
Resin-finished fabrics? What causes odor in ... Dec. 91
Resin-finished fabrics, How to check evolved formaldehyde in ... May 80
Scour cotton knitted fabrics, How to ... July 99
Smoothness of cotton fabrics, Improving the ... Dec. 97
Souring pH is critical for resins ... Oct. 95
Southern Textile Exposition, Highlights of bleaching, dyeing, finishing, and cloth-room equipment ... Nov. 50
Sulfated oils and tallow, How we make our ... Sept. 88
Tenter-clip marks, How to eliminate ... Oct. 108
Tenter dryer, Improved ... Feb. 170

Cotton opening
Better blending, heavier laps improve opening and picking ... Feb. 86
Chokes at the combing roll, Modified feeder prevents ... June 114
Cleaning line cuts cost at Gold-Tex Fabric Corp., Unusual ... Mar. 138
Cleaning unit, Auxiliary ... June 132
Improved machinery produces cleaner and heavier laps (Plan '59) ... Oct. 50
Improvements, The Kendall Company completes $1 1/2-million ... Nov. 54
Southern Textile Exposition, Highlights of — opening, carding, picking ... Nov. 45
SRRL openers in use, Georgia carders analyze ... July 54

Cotton picking
Better blending, heavier laps improve opening and picking ... Feb. 86
Improved machinery produces cleaner and heavier laps (Plan '59) ... Oct. 50
Improvements, The Kendall Company completes $1 1/2-million ... Nov. 54
Southern Textile Exposition, Highlights of opening, picking, carding ... Nov. 45
SRRL openers in use, Georgia carders analyze ... July 54

Cotton printing
Cotton prints, How Southern Bleachery produces fine ... Feb. 118
Flannel-printing problems, Proper thickeners solve ... Dec. 102
Rotary-screen printing machine ... Aug. 101
Screen printing speeds production at Bernard, Mechanized ... May 76
Screen prints produced continuously, New method ... Sept. 83
Stencil printing machine is usually mill made ... June 121
Warp-printing processes give long repeats ... Mar. 156

Cotton roving
Calculations, Tables for card-room ... Mid-July 14
Doffing and incidental stops, Roving ... Mid-July 16
Roving stripper is made from barrel and air outlet ... Apr. 116
Southern Textile Exposition, Highlights of drawing, combing, roving ... Nov. 46
Tests roving, How Fitchburg Yarn Co. ... Feb. 107

Cotton spinning and twisting
Advanced spinning frame ... Sept. 105
Better yarn packages, Latest preparatory machines make (Plan '59) ... Oct. 57
Bobbin build, Limit switch improves ... July 16
Box-spinning frame ... Jan. 129
Box-spinning frame ... Aug. 101
Breaking-strength charts, Yarn ... Mid-July 17
Cap-bar nebs from wearing out, How to stop ... June 109
Clean rolls, Use weighted cone to ... Sept. 100
Combines worsted and cotton machinery, New mill ... June 78
Cotton-yarn quality, How to evaluate ... May 93
Direct-spinning frame ... May 116
Direct spinning, There are two kinds of ... Feb. 18
Ends down at spinning, Modern methods reduce ... Feb. 141
Head-end cylinder, Easy way to change ... Dec. 106
Improved spinning frames ... Nov. 138
Improvements, The Kendall Company completes $1 1/2-million ... Nov. 54
Labor cost, Modern spinning machinery slashes yarn (Plan '59) ... Oct. 54
Large-package spinning, Quaker Meadows installs ... Jan. 80
Modern machines and methods, Spinning mills capitalize on ... Feb. 89
Mule spinning, Wire reduces faults in ... Apr. 114
New handling, Better yarn preparation comes from ... Feb. 90
Ring, Antiwedge spinning ... June 127
Ring size, traveler speed, and tension ... Mid-July 8
Roll speed and production, To determine ... Mid-July 10
Separators, Gauge is used to realign ... June 116
Southern Textile Exposition, Highlights of spinning ... Nov. 47
Spinning frame, Improved ... June 134
Spinning frame, Improved ... Oct. 114
Spinning frame, Narrow ... Apr. 131
Spinning rings, How to start up new ... Jan. 92
Straight-line spinning ... Nov. 130
Tapes and spindles highlight Georgia TOE forum, Spinning ... July 58
Temperature, Controlled motor heat levels spinning-room ... May 59
Thick places in yarn, How one mill stopped ... Feb. 149
Twist multipliers depend on staple length, Thread ... Nov. 112
Twisted novelty yarn on surplus spinning frames, Make ... Apr. 76
Yarn quality, Spinning-roll run-out lowers ... Apr. 56

Cotton warp preparation and beaming
Beam brake bands, We use old leather on ... May 103
Best investments, New slashers prove to be one of the (Plan '59) ... Oct. 60
Checklist for slashers gives better-slashed warps ... May 180
Counter on driving drum gives more accurate yardage ... Sept. 97
Multicylinder slasher ... Oct. 124
Multicylinder slashers, Alabama mill men review new ... July 60
New slashers pay off fast at six West Point mills ... Nov. 60
New warping and drawing in, Mills go for (Plan '59) ... Oct. 58
Overwaxing cotton warps ... Mid-July 22
Reheated size unless it is homogenized, Don't use ... May 111
Section beams increase yarn capacity 66%, Large ... May 56
Size-box temperature, More on controlling ... June 18
Slasher drive, Consider these points to select a ... Apr. 79
Slasher drying rates ... Mid-July 22
Slasher speed-up, Improved drives and controls aid ... Feb. 91
Slashing blue denims, Tips on ... Apr. 126
Southern Textile Exposition, Highlights of warping, slashing, weaving ... Nov. 48
Spooler traveler, Household vacuum cleaner rides ... Aug. 90
Spooling and warping, Checklist for ... Mid-July 18
Stretching yarn too much can cause weaving trouble ... Feb. 202
Two slashers replace four at Arkwright Mills ... Feb. 145
Warping trouble, Adjust tension to remedy ... Apr. 125
Warps within limits, Measuring tape on warper keeps ... Apr. 116

Cotton weaving
Bedspreads, How Minette Mills makes woven and tufted ... Sept. 54
Broadcloth weaving, Prevent broken ends in ... Mar. 156
Canton-flannel weaving, Large warps and bobbins aid ... June 80
Correct terminology should always be used ... May 18
Dobby for high-speed looms ... Jan. 130
E-model loom brakes can be made more effective, How ... July 62
Filling feelers to make more and better cloth, How to set ... Mar. 140
High-speed loom for fine yarns ... Oct. 113
Improvements, The Kendall Company completes $1 1/2-million ... Nov. 54
Inspects looms and grades its loomfixers, How one mill ... Dec. 62
Jig holds picker while screw is inserted ... May 106
Labor cost, Calculate weaving ... Mid-July 20
Lay guides aligned and looms will run better, Keep ... Nov. 58
Life of loom parts, Average ... Mid-July 20
Loom, Automatic ... Sept. 111
Loom-gauge settings, Here's how one mill adopted ... Sept. 60
Loom performance, Look in the quill can to check ... June 71
Loom performance, Preventive maintenance improves ... Jan. 79
Loom pickers, Scheduled inspection increases the life of ... Jan. 72
Loomfixer training pays off at Buck Creek Cotton Mills ... Jan. 94
Loomfixer's work sheet helps get looms fixed ... May 99
Looms run? How fast will your ... Aug. 58
Looms were modernized by many mills in 1957 ... Feb. 92
Mass-counting system analyzes loom operations, New ... Feb. 102
Pawl for loom battery ... Aug. 120
Picker sticks, Red band on helps keep lugs high ... June 109
Plain-loom harness motion ... July 134
Produce 30% more cloth, Mills with new looms (Plan '59) ... Oct. 62
Reed, Rigid pitch ... Aug. 122
Sheeting, Loom for 82-in. ... Oct. 120
Shuttles, Alabama mill executives go for plastic ... Aug. 55
Shuttles on looms weaving industrial fabrics, Service life of ... Mid-July 22
Southern Textile Exposition, Highlights of warping, slashing, weaving ... Nov. 48
Telescoping, Stop cloth from ... Mid-July 20
Weave rooms clean, Cotton mills improve ways to keep ... Apr. 52
Woven cotton fabrics are getting wider ... June 121
Yards of woven cloth, Predetermine ... Mid-July 21

Cotton winding
Better yarn packages, Latest preparatory machines make (Plan '59) ... Oct. 57
Bobbin for best winding, Leave space on ... Apr. 126
Broken yarn ends, Constant care in winding reduces ... Mar. 142
Cheese winder ... Oct. 120
Cross-wound bobbin size, Colored disks control ... Nov. 103
Cycle control for B-C spoolers, Rig a ... June 116
Doffs light tubes on winder, Steel collar ... Jan. 147
Filling winders, Spartan Mills likes its ... Sept. 58
Good winding, 12 requirements for ... Mid-July 9
Improve winding operations, Two ways to ... Aug. 83
Knots, Razor-blade cutter produces smoother ... Oct. 106
Locking device, Spindle and shaft ... Apr. 131
New handling, Better yarn preparation comes from ... Feb. 90
Quillers, How to check Whitin ... Mid-July 12
Southern Textile Exposition, Highlights of spooling, winding, twisting ... Nov. 48
Tension on winder bobbins, Wires control ... Oct. 101
Winder cams ... Nov. 168
Winder-operator efficiency, Tube trays increase ... Oct. 108

D

Dyes & chemicals (new)
Acetal reactants, New compounds extend use of ... Dec. 91
Acid color ... July 70
Acid dye ... Mar. 118; Apr. 88; May 68; June 88; Dec. 84
Acrylic-fiber dyes ... Jan. 100
Additives improve fiber dyeability ... Dec. 82
Adhesive ... May 68
Aftertreated direct dye ... Apr. 88
Anionic softener ... Apr. 88; Oct. 97
Antibronzing agent ... Nov. 86
Antideposit agent ... June 88
Antifoam agent ... Jan. 102
Antistatic agent ... Jan. 102
Antistatic lubricant ... Oct. 98
Azoic colors ... Oct. 98
Azoic base ... Jan. 102; Oct. 97
Bacteriostatic finish ... Nov. 86
Basic color ... Feb. 116
Basic dye ... Feb. 116
Body-odor finish ... Nov. 86
Catalysts ... July 70
Cationic emulsifier ... Oct. 98
Cationic softener ... Aug. 64
Cationic softeners ... Mar. 118
Cellulose gums ... June 88
Chelating agent ... Apr. 88
Coating antifoamers ... June 88
Dacron reserve colors ... July 69
Defoamer ... Nov. 86
Direct dye ... Jan. 102; Feb. 116; Mar. 118; Aug. 64; June 88; Sept. 82
Discharge-printing assistant ... Aug. 64
Disperse dye ... Apr. 88; June 88
Durable moth repellent ... May 68
Dye carrier ... Aug. 64
Dye carrier for hydrophobic fiber, New ... Dec. 81
Dye retarder ... Mar. 118; Sept. 82; Oct. 98
Dyeing assistant ... July 69; Nov. 86

Ethoxylated amines ... Oct. 98
Fatty-alcohol ester ... Jan. 140
Flameproofing compounds, New ... Oct. 96
Flock adhesive ... July 70
Fluorescent dye ... Jan. 102
Fulling and scouring agent ... June 88
Fungicides ... Oct. 97
Green naphthol dye ... Oct. 98
Hosiery finish ... Mar. 118
Hydrophobic-fiber finish ... Oct. 98
Intermediate ... Sept. 82
Leveling agent ... Oct. 98
Metallized colors ... Mar. 118
Metallized dye ... Aug. 64
Mildew retardant ... July 70
Mildewproof method, New ... Feb. 114
Milling color ... May 68
Mothproofing agent ... May 68; Aug. 64
Naphthol base ... Apr. 88
Nylon finishes ... Feb. 116
Optical brightener ... Mar. 118
Penetrant ... Nov. 86
Permanent deodorant ... Jan. 102
Pigment binder, Chitosan makes ... Dec. 81
Pigment colors ... Jan. 102
Pigment-padding colors ... Oct. 97
Pigment red ... Oct. 98
Pine-oil replacement ... July 70
Print-color resins, New ... Feb. 113
Print-paste thickener ... Feb. 116; July 69; Sept. 82
Print thickener ... Mar. 118
Printing bronzes ... Mar. 118
Printing vat color ... Nov. 85
Polyester film ... Apr. 88
Polyvinyl-acetate emulsion ... June 88
Polyvinyl stearate ... May 68
Premetallized dye ... Apr. 88; July 70
Reactive black dye ... May 68
Reactive dye ... Oct. 98; Dec. 84
Reactive dyes ... May 68; Oct. 97
Reactive-dye resist agent ... Jan. 102
Red pigments ... July 70
Resin buffer ... Nov. 86
Resin finishes, More-stable ... Oct. 95
Resin, Modified UF ... Nov. 86
Resin softener ... June 88
Resins for treating white cotton goods, The new ... Apr. 89
Resins require no catalyst, New ... Nov. 83
Resins, Water-soluble ... Jan. 99
Scouring agent ... Feb. 116; July 70
Sequestrant ... Jan. 102
Silicone catalyst ... May 68; Oct. 98
Silicone finish ... July 69
Silicone finish for cotton ... May 68
Silicone softener ... July 69
Softener ... Feb. 116; Mar. 118; May 68; Aug. 64
Softener, Nonionic ... Dec. 84
Soil retardant ... Aug. 64
Spot remover ... July 70
Spotting compound ... Feb. 116
Starch ether ... Aug. 64
Starch doesn't jell, New ... Dec. 81
Textile auxiliary ... Apr. 88
Thermosetting resin ... Nov. 85; Nov. 86; Dec. 84
Titanium stripper ... Feb. 116
Triacetate dye carrier ... Apr. 88
Ultraviolet absorber ... June 88
Ultraviolet-light absorber ... Dec. 84
Vat dye ... Jan. 102; Feb. 116; May 68; July Aug. 64; Sept. 82; Nov. 85, 86; Dec. 84
Vat-dye kits ... Feb. 206
Vat yellow ... Apr. 88
Vinyl-acrylic copolymer ... Mar. 118
Vinyl and latex compounds ... June 88
Vinyl-butadiene latex ... Dec. 84
Warp-size adjuvant ... July 105
Warp spray ... Dec. 146
Water repellent ... Sept. 82
Wool-chlorination aid ... Oct. 98
Wool colors ... July 70

Striper drums for better turning, Extend — July 90
Sweater lengths even, Ten tips to keep — Sept. 102
Sweater machine, Control for — Nov. 127
Technical problems, Knitters are solving — Feb. 97
Tension, Use spring jaws to improve — May 104
Thread needles, Here's an easy way to — Feb. 162
Thermal knitted fabric — Aug. 97
Transfer knitting machine — Sept. 110
Turn sweaters 20% faster — Jan. 149
V-bed knitting machine — Oct. 150
Vertical-stripe machine — Aug. 104
Wax yarns on the knitting machine, How to — Aug. 90
Weights tidy on knitting machines, Keep — Jan. 150
Worsted outerwear, How Lebanon finishes — July 74
Yarn moist, Polyethylene bags keep — Sept. 99
Yarns for knitting, Selecting — Mid-July 35
Zefran knitting — Aug. 53
Zig-zag machines — Jan. 174

Knitting — hosiery

Argyle-sock attachment — Mar. 165
Boarding problem, Plastic trays solve hosiery — May 58
Control, Hosiery-machine — Dec. 116
Count stitches, Here's an easy way to — May 106
Double-dip safety helps full-fashioned knitting — Jan. 149
Dyed hosiery identified with polyethylene film — Sept. 97
Full-fashioned machine — Aug. 101
Full-fashioned machine — Nov. 136
Full-fashioned-stocking construction — Mid-July 37
Heels can be made by rotary knitting, Hosiery — May 113
Hosiery attachment — Aug. 108
Hosiery-clipping machine — Apr. 138
Hosiery-dyeing machine, Automatic — July 106
Hosiery form — Aug. 108
Hosiery-form cleaner — May 126
Hosiery-length problems, New techniques to solve — Jan. 82
Hosiery-length problems — Apr. 18
Hosiery machine — Sept. 105
Hosiery sizes — Mid-July 35
Inspect socks at Athens Hosiery Mills, Boarders now — Aug. 126
Jacquard knitting machine — Oct. 148
Knitting business? What's happening in the — Apr. 59
Knitting operations, How control charts helped — Apr. 51
Komet hosiery machines, Checklist for — Mid-July 40
Lengths, Controlling hosiery — June 16
Looper, Automatic — Dec. 110
Looper faster, Pull socks off — Mar. 152
Looping, Unravel socks for perfect — Sept. 100
Loopless-toe hosiery, How Adams-Millis Corp. knits — Sept. 51
More production per manhour, Modernization in knitting mills means (Plan '59) — Oct. 71
Pattern drum, Hosiery — Oct. 154
Postboarding machine, Continuous — Jan. 138
Schedules speed sock production, Weekly — Mar. 136
Seaming machine, Hosiery — Aug. 108
Seamless-hosiery addition has modern handling method, Alba's new — July 56
Sew socks easier, Use a clamp to — Jan. 148
Side play on full-fashioned machines, Eliminate — Sept. 101
Sinker-head inserts, Nylon — Sept. 110
Sock-inspecting machine — Dec. 112
Sock transfers, Here's an easy way to trim — Aug. 83
Stretch socks, Select yarns and methods to make better — Nov. 56
Technical problems, Knitters are solving — Feb. 97
Tension control, Yarn — Jan. 132
Trimming unit, Hosiery — Oct. 113
Yarn feeders, Remove play on Komet — July 89
Yarns for knitting, Selecting — Mid-July 35

Knitting — tricot and raschel

Continuous steaming, How to set nylon tricot by — Feb. 127
Curling can now be controlled, Fabric edge — Oct. 110
Damaged ends, Tricot yarn guides reduce — Mar. 149
Fine yarns, Paint tricot guides to see — Dec. 104
Knitting business? What's happening in the — Apr. 59
Lubricate tricot machines, When and how to — Feb. 204
More production per manhour, Modernization in knitting mills means (Plan '59) — Oct. 71
Pile fabrics, 10 ways to knit — Sept. 66
Power nets need two bleaching agents, Raschel — Dec. 16
Production, Tricot — Mid-July 35
Raschel lace, Pointers on knitting — Mar. 144
Rope marks in tricot, A method to eliminate — Jan. 143
Technical problems, Knitters are solving — Feb. 97
Tricot for 260-den. nylon, Use 21-gauge — Jan. 144
Tricot machine — Aug. 102
Warp guide keeps ends separated, Tricot — Jan. 146
Warp-knitting production — Mid-July 39
Women's underwear fabric is now mostly tricot — Nov. 112
Yarns for knitting, Selecting — Mid-July 35

Oil hole protects card clothing and shaft, New — Apr. 111
Oil holes in temple case prolong life of the bar — May 108
Oiler, Gravity-feed — Apr. 184
Program, How you can plan a lubrication — Mar. 92
Sewing machines after work is done, Oil — Sept. 101
Southern Textile Exposition, Highlights of auxiliary equipment and supplies — Nov. 51
Suction gun — Mar. 202
Tender-chain lubricant — Aug. 118
Units, lubrication — Oct. 176

M

Maintenance

Air-conditioning loads, Six heat sources determine — July 132
Blankets spark sales at Springfield Woolen Mills, New — Dec. 56
Broken yarn ends, Constant care in winding reduces — Mar. 142
Cap-bar nebs from wearing out, How to stop — June 109
Centrifugal pumps running, Maintenance checklist keeps — Aug. 128
Checklist for slashers gives better-slashed warps — May 180
Cleaning brushes, How to prolong life of — May 99
Compressed-air lines, How to keep moisture out of — June 170
Defects in spooling and warping, Checklist reduces — Feb. 200
Electronics opens new areas in engineering and maintenance — Feb. 100
Ends down at spinning, Modern methods reduce — Feb. 141
Floor seal, Heavy-duty — June 128
Guide to exhibitors at Southern Textile Exposition — Sept. 129
Hardwood floors, Maintenance of — Mid-July 51
Komet hosiery machines, Checklist for — Mid-July 40
Lighting helps both management and workers, Better — Feb. 205
Loom performance, Preventive maintenance improves — Jan. 79
Loom pickers, Scheduled inspection increases the life of — Jan. 72
Loomfixer training pays off at Buck Creek Cotton Mills — Jan. 94
Maintenance employees, Getting work cooperation from — May 184
Modern lighting practice, See and work better with — Oct. 190
Motor bearings, Quick lead-wire test shows worn — Apr. 120
Motor failures, Wise care of windings stops — Nov. 178
Peroxide-bleaching bowls, PVC used to rebuild — June 100
Range drives, How to start and maintain — Sept. 56
Rebuild rotor cages, Here's an easy way to — Aug. 88
Reports are valuable maintenance aids, Well-written — Jan. 182
Scheduled maintenance gives continuous production — Sept. 262
Standard time for work reduces maintenance cost — Mar. 206
Top performance, Close care of motors results in — Mid-July 47
V-belt drives, Seven check points for — Apr. 190
V-belts, Care of — Mid-July 52
Ventilating fans requires special skill, Operating — Dec. 148
Wool spinning frames, Maintenance tips for — Mid-July 28
Worsted spinning up to date, National Spinning Co. keeps — Sept. 64

Management

Attitude survey, Employee likes and dislikes revealed by — Mar. 85
Capital spending dips — Apr. 10
Chemical-finishing conference, Highlights from the — Dec. 90
Chemical-treatment business, What's happening in the — Nov. 89
Chemical treatment, Trends in — Feb. 130
Cloth ticket saves time and money, Combined — Dec. 101
Cotton-fiber table, 1958 revision — June 47
Cut production costs, Urgent aim for 1958 — Feb. 86
Diversifies production, Piedmont Cotton Mills — Mar. 89
Electric-power bills, How you can save on — Nov. 67
Feast and famine?, No — Feb. 79
Finishing costs are rising — Nov. 93
Finishing plants, Migration hits — Nov. 91
Greater profits, Modern plants and machines lead to (Plan '59) — Oct. 84
Guide to exhibitors at Southern Textile Exposition — Sept. 129
Instrumentation — the basis for better processing (Plan '59) — Oct. 80
Inventories vs. production, 1958 business: — Feb. 82
Job evaluation and work simplification, What you should know about — May 47
Knitting business? What's happening in the — Apr. 59
Labor front, Storm clouds rise over — Jan. 6
Lighting helps both management and workers, Better — Feb. 205
Live-steam costs, How to calculate — Sept. 102
Looms run? How fast will your — Aug. 58
Machines in the home make tough competition — May 20
Mass-counting system analyzes loom operations, New — Feb. 102
Mill spending off 2.7% in 1957 — Jan. 11
Modern instruments pay off in better yarns and fabrics (Plan '59) — Oct. 82
Modern machines and methods, Spinning mills capitalize on — Feb. 89
Modernize now for growth and profits — Oct. 49
New slashers pay off fast at six West Point mills — Nov. 60
New textile industry, The — Mar. 81
No depression in sight — Apr. 47
Packaging methods kindle higher fabric sales, At Dan River Mills modern — Dec. 60
Performance, How to measure and compare mill — July 49
Photographic work sampling — a new cost-control technique — Sept. 52
Pinch, Small mills in a — May 45
Plan '59: growth and profits — Sept. 43
Price brackets are evil — Oct. 16
Processes yarns at a profit, How one dyehouse — May 84
Production, Mill — Feb. 82
Profits, Plan 1959 now for greater — Aug. 43
Profits vs. liquidation — Nov. 43
Program, How you can plan a lubrication — Mar. 92
Retail sales, Miniature textile show spurs — Mar. 11
Review and forecast, 1957-1958 — Feb. 81
Rival unions talk merger while UTW cleans house — Apr. 8
Schedules speed sock production, Weekly — Mar. 136
Seat cover sales due to product promotion, Increased — Feb. 20
Sell color, For better sales — Mar. 10
Southern Textile Exposition, guide to Exhibitors — Sept. 129
Southern Textile Exposition, Highlights of the 20th — Nov. 45
Spinning production with spooling and winding, Balance — Aug. 93
Step forward, Another — June 45
Supervision—what makes it tick? — Dec. 43
Supervisors—and the job ahead — Dec. 47
Supply cost, Use this checklist for lower — Dec. 67
Tabulated data, Control manufacturing operations with — Mid-July 7
Tax write-offs, Congress may swing toward faster — June 5
Textile Revolution, the — July 47
TEXTILE WORLD's 90th birthday — Aug. 47
Today's choice: plan or drift — Oct. 43
Tufted bedspreads — an old home craft gives way to big industry — Feb. 110
Two slashers replace four at Arkwright Mills — Feb. 145
Upturn in business, Mill margins signal — June 69
Waste loss for carded yarns, Allow 14% — Jan. 143
Yarn manufacture, Change-order form simplifies — Oct. 104

Materials handling

Automation economics — how it affects labor — Jan. 69
Automation — what it is and what it means to you — Jan. 67
Blankets spark sales at Springfield Woolen Mills, New — Dec. 56
Boxes, Industrial — Feb. 178
Carrier, Overhead — Apr. 184
Caster brake — Apr. 194
Caster, Textile truck — Mar. 165
Collapsible tank, Fabric — Dec. 120
Conveyor systems, Selecting — Mid-July 50
Dyehouse trucks, Plastic — July 106
Greater profits, Modern plants and machines lead to (Plan '59) — Oct. 84

Guide to exhibitors at Southern Textile Exposition — Sept. 129
Hoist and tongs, Cloth is loaded with — July 96
Hoist, Lightweight — Nov. 176
Lap balance and lift — Feb. 169
Lap conveyor cuts handling costs $5,000 a year, Australian — Aug. 60
Lift stacker — Jan. 130
Lift truck attachment — Apr. 180
Load stabilizer — May 170
Materials-handling system combines two cotton mills — Apr. 70
Moves big cans with little effort, Truck — Oct. 101
New times — and a new TEXTILE WORLD — Jan. 63
Packaging methods kindle higher fabric sales, At Dan River Mills modern — Dec. 60
Power steering — Jan. 186
Protect yarn from damage, Auto inner tubes in trucks — Mar. 152
Roller conveyor moves 18-in. sliver cans easily — Jan. 150
Rotating forks — Feb. 207
Seamless-hosiery addition has modern handling method, Alba's new — July 56
Southern Textile Exposition, Highlights of auxiliary equipment and supplies — Nov. 51
Streamlined layout, Eagle & Phenix cloth room has — Apr. 74
Textile automation — what about the future? — Jan. 71
Tractor, Electric — Jan. 186
Tractor, Industrial — Jan. 186
Tractor, Side-hitch — May 176
Tractors, Gas — Jan. 178
Truck, Beam — Feb. 172
Truck bumper, Worn-out rubber hose makes effective — May 106
Truck, Dump — Feb. 208
Truck, Electric fork — Jan. 186
Truck for wide warp beams — Jan. 172
Truck, Fork — Feb. 208
Truck, Generator-powered — Feb. 209
Truck, Hand — Feb. 207; Nov. 172
Truck, Lift — Jan. 186; Feb. 208; Apr. 186
Truck, Roll-handling — Aug. 120
Trucks, Floor — Feb. 208
Trucks, Lightweight — May 126
Woolen yams are handled, How — Feb. 165

Metallic yarn
Weave unsupported metallic yarn, Two methods to — Apr. 125
Wet-processing guide, Metallic-yarn — Mid-July 42

N

Narrow fabrics
Elastic-web loom — May 158
Loom, Narrow-fabric — May 124
Loom, Narrow-fabric 54-in. — Dec. 109
Molten-metal dyeing machine — Aug. 104
Ribbon-slitting machine — June 128
Roll-up beam, Ribbon — Sept. 108
Weight loss in ribbons should be negligible — Jan. 144
Zipper tapes, How Caledonian dyes — Mar. 132

Nonwoven fabrics
Better bonds from treated Teflon — Sept. 79
Fiber for nonwoven fabrics — July 103
Finish nonwoven fabrics, Two ways to — Sept. 102
Finishing nonwoven fabrics — Mid-July 44
Nonwoven lining — Sept. 116
Nonwovens, Bright future for — Mar. 6
Paper hopes to capture more textile markets — Feb. 10
Potentials, Nonwoven-fabric — Dec. 119
Powdered resins bond fibers — Aug. 63
Practical nonwoven fabrics, Mills expand by making (Plan '59) — Oct. 65
Production, Research in nonwoven fabrics may soon increase — Feb. 94
Towel, Nonwoven — Dec. 120

P

Packaging
Bag packager — Dec. 114
Bedspreads, How Minette Mills makes woven and tufted — Sept. 54
Box flaps open, Make clamp from angle iron to keep — Feb. 160
Guide to exhibitors at Southern Textile Exposition — Sept. 129
Inspect and package socks at the same time — Mar. 155
Knitting-wool packaging, Metal box speeds up — July 90
Labeling bill as useless legislation, Mills hit — Apr. 6
Leaf printer — Mar. 162
Packing methods kindle higher fabric sales, At Dan River Mills modern — Dec. 60
Paper-protected strapping — Sept. 113
Pneumatic packer — Nov. 176
Polyethylene-bag packager — May 122
Printer, Package-wrap — Jan. 188
Sock-display box — Dec. 120
Southern Textile Exposition, Highlights of auxiliary equipment and supplies — Nov. 51
Stapling machine — Feb. 208
Steel-strap dispenser — Sept. 252
Strapping tool — Sept. 254
Strapping tool, Hand — Jan. 134
Strapping tool, Heavy-duty — Oct. 154
Tools for packaging, Old monkey wrenches make good — Feb. 162
Versatile packaging machine — Aug. 102

Power generation & transmission — See also Electrical equipment
Bias, Variable-speed drive eliminates — Jan. 145
Boiler for process loads — Sept. 112
Boiler, Packaged — Oct. 170
Deionizer effluent, Counterflow regeneration improves — June 82
Drive, Adjustable-speed — Apr. 144
Drive, Custom-engineered — Jan. 132
Drive, Dripproof — Aug. 118

Motors, Submersible — June 134
Motors, Totally protected — Feb. 174
Motors, Wound-rotor electric — June 156
Pulleys, Variable-speed — Aug. 120
Range drives, How to start and maintain — Sept. 56
Shafting, Selecting supports for — Mid-July 51
Slasher drive, Consider these points to select a — Apr. 79
Southern Textile Exposition, Guide to exhibitors at — Sept. 129
Southern Textile Exposition, Highlights of auxiliary equipment and supplies — Nov. 51
Speed changer, Automatic — Sept. 106
Speed reducers — Nov. 168
Synchronous induction motor — Feb. 207
Textile motors, What you should know about the newest — Jan. 74
Variable-frequency system — Feb. 178
V-belt drives, Seven check points for — Apr. 190
V-belt, Neoprene and Dacron — Sept. 108
V-belts, Care of — Mid-July 52

Public relations
Exit interviews can help your employee relations — Aug. 81

Q

Quality control
Binomial probability solved five wool problems, How — Apr. 72
Cotton-yarn quality, How to evaluate — May 93
Knitting operations, How control charts helped — Apr. 51
Loom-stop checks, Use a new formula to make effective — Apr. 69
Low-grade cotton, Fineness is No. 1 factor in blending — Dec. 54
Mispicks in wool fabrics, How to eliminate — Mid-July 24
Misplaced filling yarn, Causes of — Mid-July 10
Organize quality control, How 32 mills — Aug. 130
Personnel troubles, Quality-control system uncovered — Apr. 49
Quality-control methods, ASQC surveys latest — Apr. 49
Quality incentives pay off in lower costs, Knitting — June 72
Quality information is screened at Berkshire Hathaway — Apr. 50
Seamless-hosiery addition has modern handling method, Alba's new — July 56
Spun-yarn inspector — July 106
Statistical quality control of textile products — Mid-July 6
Variation at the comber, This checklist will help you reduce — Apr. 80
Worsted spinning up to date, National Spinning Co. keeps — Sept. 64
Yarn and fabric quality, Pilot mill helps predict — Apr. 57
Yarn irregularity, Use your mill test data to show — Dec. 64
Yarn-number variations, Between-bobbin variations cause most — Apr. 50
Yarn quality, Spinning-roll run-out lowers — Apr. 56

R

Research and testing
Abrasion-testing set — Apr. 140
Absorb ultraviolet, save shade — May 66
Air currents in cards pull few fibers from wire — Feb. 198
Automation — what it is and what it means to you — Jan. 67
Automation with process instruments — Jan. 125
Basic research, The individual has a part in — Feb. 22
Blending by Micronaire numbers, How to improve — Sept. 62
Breaking-strength charts, Yarn — Mid-July 17
Burn tester, Fabric — Mar. 163
Burst-strength tester — July 136
Calender friction, How to specify — Sept. 102
Calender, Laboratory — July 108
Cellulosic fibers, How direct colors dye — June 96
Clamp holds slippery yarn under high tension — Feb. 162
Contraction, Effect of twist on ply-cotton-yarn — Mid-July 19
Cotton-cloth weights, How to calculate — Feb. 166
Cotton-fiber table, 1958 revision — June 47
Cotton Research Clinic, Fiber and yarn testing features — Apr. 54
Cotton-yarn quality, How to evaluate — May 93
Crimp tester — June 164
Dacron-rayon blends, How to test — Oct. 110
Definition of the term $mm^2/mm3$, Here's a — June 121
Definition — better explanation of mm^2/mm^3 question — Sept. 16
Dry cloth samples with compressed air — Aug. 90
Dryer, Model fiber — Jan. 130
Dye mixtures misbehave, Why — Apr. 85
Dyestuff classes, Identification of — Jan. 115
Elastic-fabric tester — Dec. 142
Elasticity meter, Yarn — Mar. 165
Electronics in textile processing — Jan. 121
Elongation tester — Nov. 162
Fabric strength to 7% regain, To correct — Mid-July 8
Fabric temperature, Measure with a radiation pyrometer — June 89
Fiber-fineness data to improve cotton processing, Use — Jan. 96
Fulled fabrics, Testing — Jan. 117
Fulling machine, Laboratory — July 112
Guide to exhibitors at Southern Textile Exposition — Sept. 129
High-grade 1958 cotton, South Texas produces — Dec. 69
Hosiery-length problems, New techniques to solve — Jan. 82
How to select cotton, Buyers are told — Sept. 71
Infrared spectroscopy, New uses for — Nov. 83
Internal-bond tester — Sept. 111
Isolator cabinet — June 172
Knitted fabric, Parts of — Mid-July 37
Length of cotton fiber, Pneumatic instrument measures — May 93
Lightfastness, How resins affect — Dec. 94
Linen-yarn diameter, How to calculate — Oct. 110
Loom-shuttle tensioning instrument — Jan. 129
Low-grade cotton, Fineness is No. 1 factor in blending — Dec. 54
Magnifying glass, Adjustable mount holds — July 94
Man-made-fiber processing, Five properties that affect — Mar. 90
Mean-length values are not easy to figure, Cotton — Apr. 126
Meter, Tension — Mar. 190
Mixed yarns, Here's a simple way to identify — June 118
Modern instruments pay off in better yarns and fabrics (Plan '59) — Oct. 82
Molecular sieves, New use for — June 86
Nep-test machine — Apr. 144
Nepotometer in testing, Progress report on use of the — May 92
Nuclear energy — a new textile tool — Jan. 123
Performance, How to measure and compare mill — July 49
Periodic variations, How to spot — Mid-July 7
pH control cuts ClO_2 corrosion — Nov. 84
Radioisotope use is growing — June 87
Regain at various conditions, Fiber moisture — Mid-July 5
Research aims at higher carding production — Feb. 87
Resin-finished fabrics, How to check evolved formaldehyde in — May 80
Resins identified quickly — Apr. 85
Resins on light fading, Effect of — Jan. 114
Rio Grande's 1958 cotton is better than average — Nov. 53
Shrinkage, Loop shape predicts knitted-fabric — Dec. 59
Southern Textile Exposition, Highlights of testing and control equipment — Nov. 52
Spinning twist calculator — Mid-July 9
Stress-strain properties, How 8 fibers compare in — Mar. 97
Tensile-strength tester, Yarn-bundle — Mar. 164
Tensile tester — Sept. 252
Tensile-testing machines — June 127
Tester, Circuit — Jan. 186
Tester, Single-strand — Nov. 164
Testing instruments take guesswork out of textiles — Feb. 101
Testing wool blends — Mid-July 25

Mixed yarns, Here's a simple way to identify ... June 118
New Du Pont polyester has wide possibilities ... May 8
New Saran fiber ... July 103
Nylon heat-treating, Silicone oils help ... Dec. 83
Polyester fiber planned, New ... Oct. 133
Polyethylene fibers, Improved ... July 103
Polypropylene yarn ... Aug. 97
Protection for nylon ... Mar. 117
Protection for Nylon – Nylon type incorrectly stated ... June 18
Spun-rayon yarns, Effect of twist on ... Mid-July 31
Stress-strain properties, How 8 fibers compare in ... Mar. 97
Stronger tire yarn ... June 123
"Super" rayon called Tyrex ... Oct. 133
Type 64 Dacron ... Sept. 115
Zefran . . the newest commercial fiber ... Aug. 49

Synthetics finishing
Bleaching range, Open-width ... Jan. 136
Chemical-treatment advances show way to profits (Plan '59) ... Oct. 76
Chemical treatment, Better methods and materials for ... Feb. 99
Continuous steaming, How to set nylon tricot by ... Feb. 127
Crease resistance, Pretreat rayon for ... Sept. 80
Dryer for man-made fibers ... May 124
Drying machine ... Apr. 140
Fabric temperature, measure with a radiation pyrometer ... June 89
Filling straight, Some pointers on keeping ... May 112
Heat-setting affects dichroism ... Aug. 61
Heat-setting machine ... Nov. 148
Nappers work — and how to work them, How ... July 78
Processes yarns at a profit, How one dye-house ... May 84
Resin-finished fabrics, How to check evolved formaldehyde in ... May 80
Solvent-peroxide preparation system ... Oct. 95
Southern Textile Exposition, Highlights of bleaching, dyeing, finishing, and cloth-room equipment ... Nov. 50
Sulfated oils and tallow, How we make our ... Sept. 88
Tenter dryer, Improved ... Feb. 170
Thermoplastic fabrics, Embossing upgrades ... Aug. 76
Wash-and-wear rayon next? ... Apr. 86
Wet-processing guide, Metallic-yarn ... Mid-July 42
Zefran chemical treatment ... Aug. 54

Synthetics picking
Orlon staple on cotton machinery, How Rhyne-Houser runs ... Sept. 48

Synthetics printing
Fiberglas printing, Improved ... July 67

Rotary screen-printing machine ... Aug. 101
Screen printing speeds production at Bemard, Mechanized ... May 76
Screen prints produced continuously, New method ... Sept. 83
Stencil-printing machine is usually mill made ... June 121
Warp-printing processes give long repeats ... Mar. 156

Synthetics, solution-dyed
Solution-dyed yams increase tufted-carpet sales ... June 76

Synthetics spinning
Blends, Spinning ring for ... May 124
Combines worsted and cotton machinery, New mill ... June 78
Direct-spinning frame ... May 116
Direct spinning, There are two kinds ... Feb. 18
Improved spinning frame ... Oct. 114
Labor cost, Modern spinning machinery slashes yarn (Plan '59) ... Oct. 54
Loop yarns, Tips on spinning ... Nov. 59
Modern machines and methods, Spinning mills capitalize on ... Feb. 89
Orlon staple on cotton machinery, How Rhyne-Houser runs ... Sept. 48
Ring, Antiwedge spinning ... June 127
Ring size, traveler speed, and tension ... Mid-July 8
Southern Textile Exposition, Highlights of spinning ... Nov. 47
Spinning frame, Narrow ... Apr. 131
Spinning rings, How to start up new ... Jan. 92

Synthetics throwing
Glass fiber, Throwing ... Mid-July 34
Taslan yarns, How Claussner makes ... Feb. 108
Textured, Filament yarns are becoming ... Feb. 96
Textured-yarn machines, Throwsters modernize with (Plan '59) ... Oct. 69

Synthetics twisting
Better yarn packages, Latest preparatory machines make (Plan '59) ... Oct. 57
Cord former, Clarkson ... May 115
New handling, Better yarn preparation comes from ... Feb. 90
Southern Textile Exposition, Highlights of spooling, winding, twisting ... Nov. 48
Twisted novelty yarn on surplus spinning frames, Make ... Apr. 76
Twister cabler, Tire-cord ... Apr. 132

Synthetics warp preparation and beaming
Best investments, New slashers prove to be one of the (Plan '59) ... Oct. 60
Checklist for slashers gives better-slashed warps ... May 180
Double ends, Rubber band can reduce ... Nov. 110
Lease-rod stand at slasher has light for inspection ... May 108
Multicylinder slasher ... Oct. 124
Multicylinder slashers, Alabama mill men review new ... July 60
New warping and drawing in, Mills go for (Plan '59) ... Oct. 58
Slasher drive, Consider these points to select a ... Apr. 79
Slasher speed-up, Improved drives and controls aid ... Feb. 91
Slashing filament yarns ... Mid-July 9
Southern Textile Exposition, Highlights of warping, slashing, weaving ... Nov. 48
Warps with blended wax, Overwax ... Mar. 157

Synthetics weaving
Anticrease device ... Sept. 112
Bobbins off floor, Move bag-holder fork to keep ... June 109
Dobby for high-speed looms ... Jan. 130
Dobby link with a screwdriver, Remove ... July 92
Filling feelers to make more and better cloth, How to set ... Mar. 140
Lay guides aligned and looms will run better, Keep ... Nov. 58
Light-lift fabrics need special settings ... Aug. 16
Loom for man-made fibers ... Nov. 130
Loom performance, Look in the quill can to check ... June 71
Loom performance, Preventive maintenance improves ... Jan. 79
Loom pickers, Scheduled inspection increases the life of ... Jan. 72
Loomfixer's work sheets helps get looms fixed ... May 99
Looms were modernized by many mills in 1957 ... Feb. 92
Lug holdups from old checkstraps, We make ... May 106
Multishuttle loom for man-made fibers ... Oct. 118
Multishuttle loom, High-speed ... Dec. 112
Pick-out, Bottle-and-wick dampener loosens ends for ... July 94
Produce 30% more cloth, Mills with new looms (Plan '59) ... Oct. 62
Single-shuttle loom ... Nov. 134
Southern Textile Exposition, Highlights of warping, slashing, weaving ... Nov. 48
Spindle for insertion of filling, Peg raises ... Mar. 152
Splice yarn or filaments, Weavers keep glue handy to ... Aug. 84
Wavy cloth with let-offs, Judson Mills eliminates ... Sept. 47
Zefran weaving ... Aug. 52

Synthetics winding
Better yarn packages, Latest preparatory machines make (Plan '59) ... Oct. 57
Cheese winder ... Oct. 120
Filling winders, How to calculate production on ... Mid-July 29
New handling, Better yarn preparation comes from ... Feb. 90
Nubby-yarn breaks, Guide to control balloon prevents ... July 94
Plastic bobbin ... Nov. 168
Protects fine yarns, Powder on quills ... Oct. 101
Quill winders, Reduce cleaning time on ... Aug. 86
Sloughing, Apply size on cones to stop ... June 114
Southern Textile Exposition, Highlights of spooling, winding, twisting ... Nov. 48
Tension on winder bobbins, Wires control ... Oct. 101
